House Week in Review

On Thursday morning, the House, by a vote of 91-14, gave 3rd reading to H. 3610, the \$3.7 billion general appropriations bill. 3rd reading came after 6 days of debate. Video Poker remained an issue of contention as the House considered the budget bill, with the House finally agreeing to give counties the option, through referendums, to decide whether or not to allow the machine payoffs to continue. However, the Senate, following an all-day session last Thursday on video poker, approved measures calling for a statewide referendum and a county-by-county referendum on video poker payoffs.

The House also increased the penalty for failing to pay the annual \$1,500 license fee on video poker machines from \$50 to \$2,500 and added \$250 to the annual fee to put computerized devices on the machines, which would measure machine profits and report them to the State Tax Commission. Additionally, counties and municipalities would be allowed to implement a fee of \$150 for the purpose of licensing a machine, and a \$1.00 fee would be imposed on every machine to help pay for county referendums on whether to prohibit or permit the payoffs. (Under the House amendment, a county which votes to prohibit the payoffs could later vote to permit payoffs.)

Though measures to raise the sales tax cap on motor vehicle sales and to raise cigarette taxes failed, the House did approve a number of other amendments to the appropriations bill. Among those amendments were the following:

---A \$1.00 fee was added to the cost of license plates, raising the cost per plate to \$13. The extra dollar fee is expected to bring in perhaps \$2.5 million, for the purpose of training emergency medical workers and upgrading their equipment.

---Counties and municipalities which currently allow Sunday alcohol sales for on-premises consumption would be allowed to permit Sunday beer and wine sales for off-premises consumption (sales at grocery and convenience stores). If these localities authorize such sales, the state may take in over \$1 million in additional license fees, while the State's General Fund could net an additional \$600,000 from these sales.

---A 5 percent surcharge on criminal fines to help pay for indigent defense. Part of the money collected from the surcharge would go to paying defense lawyers in capital cases.

---\$700,000 for poor women who seek the long-term birth control device Norplant.

The appropriations bill now goes to the Senate for consideration.

The House on Thursday also gave 3rd reading to H. 3546, the comprehensive restructuring bill, which also now goes to the Senate. The vote was 90-11. A chart located at the end of this Update lists how state agencies would be affected by the House's plan.

On Wednesday, the General Assembly convened in joint session to hear an address by the Honorable Roger Munson, National Commander of the American Legion. During his speech, Mr. Munson spoke of the need to improve veterans' health care and cautioned against a hasty reduction of the nation's defense expenditures.

Legislative Update, March 30, 1993

Bills Introduced

The following bills were introduced in the House of Representatives last week. Not all bills introduced in the House are featured here. The bills are arranged according to the standing committee to which the legislation was referred.

Agriculture, Natural Resources and Environmental Affairs

Purposes and Activities of Wildlife and Marine Resources Department (H. 3760, Rep. Snow). This bill defines the jurisdiction and responsibilities of the South Carolina Wildlife and Marine Resources Department and lists the activities the Department is to undertake while carrying out its responsibilities. The bill also deletes authorization for the Wildlife and Marine Resources Commission to enter into agreements to manage nongame or endangered wildlife. Also deleted is a provision allowing the Commission to set forth regulations pertaining to the removal, capture or destruction of nongame wildlife under limited conditions.

Deer Hunting (H. 3771, Rep. T.C. Alexander). This bill states that the Department of Wildlife and Marine Resources must promulgate regulations pertaining to the taking of game on wildlife management areas. Additionally, the General Assembly must pass laws governing the taking of game on private land. The bill also amends provisions governing deer hunting in several of the state's game zones.

Sale of Cultured Game Fish (S. 511, Sen. G. Smith). Under this bill, it would be lawful for anyone to sell, offer for sale and transport cultured game fish for stocking or restocking private ponds. Under these provisions, any cultured game fish 4 inches or larger must be produced from South Carolina-raised brood stock. The bill defines "cultured game fish."

Deletion of Requirement to Report Fish Die-Offs (S. 514, Sen. G. Smith). This bill deletes the requirement that persons engaged

in the practice of aquaculture must report any fish die-offs in excess of 250 fish.

Education and Public Works

Parental Involvement Program (H. 3769, Rep. Byrd). This bill would require the State Department of Education to develop a parental involvement program for use in the state's elementary and secondary schools. The purposes of this program would be to improve parental participation in their child's academic progress, improve communications between the school, parent and child, provide greater accountability between the school, parent and child, and detect problems the child may have before the problems get out of hand.

The bill lists activities the program is to undertake in accomplishing its purposes and lists the schedule for implementation of the program.

Prohibited Penalties for Driving Without License in Possession (S. 402, Sen. Land). This bill states that no court costs may be imposed against a person convicted of driving a motor vehicle without having in his immediate possession a license. Additionally, no points may be assessed against the person's driving record or for insurance purposes.

Judiciary

Legal Interest Rate (H. 3759, Rep. Houck). This bill states that in all cases of accounts stated (an agreed balance between the parties) and in all cases in which a sum or sum of money is ascertained, due and draws interest, the legal interest rate would be the prime rate plus 1 percent per annum, as currently opposed to the rate of 8.75 percent per annum. Additionally, the legal interest rate for money decrees and judgments of courts which are enrolled or entered would change from 14 percent per annum to the prime rate plus 3 percent per annum. The prime rate in effect on January 1 of each year would be the applicable prime rate for interest that year. The bill lists the procedure for calculating the prime rate.

Liens of Gas and Electrical Utilities (H. 3762, Rep. Hodges). This bill lists provisions governing liens held by gas and electrical utilities. Under this bill, a lien on real property held by a gas or electric utility is effective until satisfied or released, regardless of whether or not a maturity date is listed. This provision would be an exception to current state law, which states that a lien lapses 20 years from the date of the lien's maturity. Also, mortgages executed by a gas or electrical utility company which create a lien upon any real property interest then owned or thereafter acquired and which are recorded as a mortgages

of real property in any county where the property is or will be located would have the same force and effect as if the mortgage were also recorded or filed in the proper office of the county as a personal property mortgage. Provisions governing liens held by these utilities which are used to secure existing indebtedness or indebtedness to be incurred in the future also are listed.

The bill also provides that real property in mortgages given by a gas or electrical utility company may be described in general terms.

State Lottery (H. 3765, Rep. Scott). This joint resolution seeks to amend the Constitution so as to authorize a state lottery. Revenues from the lottery would be paid into the state lottery fund, with interest earned remaining a part of the fund.

Yearly lottery funds would be expended as follows: (1) Not more than 15 percent would be used for the lottery's operational expenses; (2) 50 percent would be expended as prizes; and (3) Remaining revenues would be used for education, health care and capital improvements as provided by the General Assembly.

If the General Assembly approves this joint resolution, it would be submitted to the voters as a constitutional amendment at the next general election.

Duties and Responsibilities of Jurors (H. 3766, Rep. J. Brown). This joint resolution seeks to amend the Constitution so as to list the duties and responsibilities of persons serving on a trial jury. It would be the right of every person serving on a trial jury, whether in a criminal trial or in a civil action in which local or state government or its agent is a party to the action, to judge both the law and facts in these cases. Jurors must be informed of that right, and failure to inform jurors of that right would be sufficient grounds for mistrial in a criminal case. This resolution requires the court to inform jurors of their rights and responsibilities before the jury hears a criminal case and again before jury deliberation begins and lists what must be considered in judging the law and facts. A juror would not be obligated to find a defendant guilty even if the defendant is proven guilty beyond a reasonable doubt. Furthermore, a juror would be permitted to consider arguments and opinions of fellow jurors in reaching a decision but must not allow his judgement to be influenced by a desire to reach unanimity.

If the General Assembly approves this resolution, it would be submitted as a constitutional amendment to the voters at the next general election.

Racketeering (H. 3767, Rep. Wilkins). This bill would prohibit a person from engaging in or profiting from racketeering activity. The bill defines "racketeering activity" as an action in which one commits, attempts or conspires to commit or aid in a number of crimes. The bill lists those crimes, examples of which include (but are not limited to) murder, kidnapping, robbery, sexual exploitation of a minor, and drug trafficking. A person who

violates these provisions would be guilty of the felony of corrupt business influence and upon conviction would be jailed not more than 10 years, fined not more than \$100,000, or both. If the person engages in conduct through which he derives monetary gain or which causes personal injury, property damage or other loss, he could be fined not more than 3 times the gross value of the gain or loss, whichever is greater, along with the costs of the investigation and prosecution reasonably incurred. The prosecuting attorney in a county where a racketeering violation occurs could bring an action in the county to enjoin this violation. If the court finds that a violation has occurred, the court could order a number of remedies, as listed in the bill. As examples, the court could order a defendant to divest himself of any interest in any enterprise or property and could order the dissolution or reorganization of any enterprise.

The bill authorizes a county prosecuting attorney to bring an action for the forfeiture of property in his county used or intended for use in the course of racketeering, or which is derived from or realized through racketeering activity. Property forfeited under these provisions would be forfeited to the State, and the bill lists provisions as to how proceeds from forfeitures are to be allotted. The bill lists procedure for the seizure of property subject to forfeiture and conditions under which seizure may be made without court order. An "aggrieved person" (defined as the State or an innocent person who has been injured by or suffered damages because of racketeering activity) would be allowed to bring an action for injunctive relief from corrupt business influence, either in the court of the aggrieved person's residence or in a county where any of the affected property is located. If the court finds that the aggrieved is suffering from corrupt business influence, the court then would make an order for injunctive relief and could also issue a temporary restraining order or preliminary injunction. If the aggrieved brings an action against a person who has engaged in racketeering activity and shows that he has been damaged by corrupt business influence, the court would order the person causing the damage to pay the aggrieved person (1) an amount equal to 3 times his actual damages; (2) the costs of the action; (3) a reasonable attorney's fee; and (4) any punitive damages awarded by the court and allowed under law. Additionally, the aggrieved person would have the right or claim to forfeited property or to the proceeds derived from forfeited property superior to any right or claim the State would have in the same property or proceeds.

Circuit Court Jury Lists (H. 3774, Rep. Graham). This bill deletes the requirement that county jury lists be composed partially from a list of county residents 18 and older who hold a drivers' license or state identification card. Instead, jury lists would be composed solely from the list of registered voters in the county, as furnished by the State Election Commission.

Disclosure of Records of Workers' Compensation Commission (H. 3777, Rep. Rogers). This bill states that records of the Workers' Compensation Commission pertaining to accidents, injuries and settlements must be open to any state agency, if the agency satisfies the Commission of the agency's interest in the record and the right to inspect them.

Transfer of Cases From General Sessions Court to Magistrate's or Municipal Court (H. 3778, Rep. Rogers). This bill deletes the temporary effectiveness of current law governing these transfers and alters the procedure under which a case may be transferred from General Sessions Court to Magistrate's or Municipal Court. Currently, the case may not be transferred unless the defendant agrees in writing to the transfer, but under this bill the case could be transferred unless the defendant objects on the record after notification by the solicitor that he is seeking to transfer the case. The bill also adds a provision that when cases are transferred to the magistrate's or municipal court, the chief administrative criminal court judge in the circuit would set the terms of court and order the magistrates and municipal judges to hold terms of court on specific times and dates for the disposition of these cases. Finally, the bill deletes a provision concerning the reporting to the General Assembly of cases transferred under these provisions.

Reporting Requirements for Legislators (S. 416, Sen. McConnell). Current law requires public officials to file reports detailing their economic interests before they may take their oath of office or enter into official responsibilities. This bill would exempt legislators from including in these reports invitations to events by a lobbyist's principal, whether or not the legislator attended the event. (A "lobbyist's principal" is a person on whose behalf and for whose benefit the lobbyist engages in lobbying and who directly employs, appoints or retains a lobbyist to engage in lobbying.) The written invitation would not have to be reported if (1) it was extended to all members of either or both branch(es) of the General Assembly and delivered to the respective invitations committee; or (2) it was extended to a legislative committee, subcommittee, caucus or county legislative delegation and delivered to the respective committee or legislative delegation chairman.

If adopted, these provisions would apply to all statements of economic interest filed after December 31, 1991.

Labor, Commerce and Industry

Repeal of Prohibition Against Carnivals and Traveling Tent Shows (S. 229, Sen. Martin). This bill would allow carnivals and traveling tent shows to exhibit in South Carolina. Currently, carnivals may not exhibit except those at county or state fairs, and traveling tent shows may not exhibit except chautauquas, dog or pony shows.

Medical, Military, Public and Municipal Affairs

Reauthorization for State Board of Pharmacy (S. 254, Sen. Drummond). This bill would reauthorize the existence of the State Board of Pharmacy for 6 years and would require the Board to set fees for permits to open a pharmacy or renew a permit to operate a pharmacy by regulation in accordance with the Administrative Procedures Act. Current fees as set by statute for a permit to open a new pharmacy (\$100) or to renew a permit to operate one (\$50) would remain in effect until the fees are promulgated by regulation. The bill also states that nominees from congressional districts seeking nomination to the Board by the Governor must be elected by pharmacists residing in the nominee's respective congressional district. Finally, the bill deletes a reference pertaining to remission of funds to the Board.

Ways and Means

Deduction for Health Insurance Premiums (H. 3757, Rep. Moody-Lawrence). As pertains to the state's income tax, this bill would allow a South Carolina public teacher who retired before 1970 to deduct payments for health insurance premiums from their taxable income. This deduction would be allowed to the extent that the premiums are not deductible for federal income tax purposes.

Minimum Salary Schedule for Faculty at Institutions of Higher Learning (H. 3758, Rep. Moody-Lawrence). Under this bill, the state minimum salary schedule for certified teachers also would be applied to academic faculty employed by state institutions of higher learning. This schedule would only apply, however, to a faculty member who meets the professional or educational requirements as currently required under state law.

Issuance of Capital Bonds in Smaller Denominations (H. 3760, Rep. Kirsh). This bill would authorize the State Budget and Control Board to provide for issuance of capital improvement bonds in denominations of less than \$1,000. The bill lists conditions pertaining to the sale and maturity for bonds issued in those denominations and provides that the State Treasurer would determine the rate(s) of interest for those bonds as well.

Fiscal Impact of General Appropriations Bill on Localities (H. 3775, Rep. Gamble). This bill would require the Budget Division of the State Budget and Control Board to attach to the annual general appropriations bill a statement of the bill's fiscal impact on counties, municipalities, and school districts. This statement would be required prior to 3rd reading of the bill and prior to any conference or free conference report on the bill.

Retirement Credit for Service in Peace Corps (H. 3777, Rep. Rogers). This bill would allow a member of the South Carolina Retirement System to establish service credit for time served in the Peace Corps under the same terms and conditions as credit may be established for military service.

Eligibility of Motor Vehicles for Lower Assessment (S. 306, Sen. Leatherman). This bill states that with regard to county-assessed personal property, a motor vehicle tax bill must indicate that a significantly-damaged or high mileage vehicle, upon appeal, may be eligible for a lower assessment.

**Listing of Bills Summarized in Legislative Update
(As of March 30, 1993)**

Listed below are general topics under which bills have been summarized in editions of the 1993 Legislative Update published up to and including March 30. Below you will find the topic, the date each bill was summarized in the Update, the bill number, and the committee to which the bill was referred. UNLESS OTHERWISE INDICATED BELOW THE BILL, BILLS LISTED UNDER THESE CATEGORIES ARE STILL PENDING BEFORE THEIR RESPECTIVE COMMITTEES The status of bills listed below is current as of Monday, March 29.

Committee Abbreviations: Agriculture=Agriculture, Natural
Resources
& Environmental Affairs
EPW=Education & Public Works
LCI=Labor, Commerce & Industry
3M=Medical, Military, Public &
Municipal Affairs
